

New Elements of Life

BABYNEL-Bed co-sleep

For an **optimal start in life:**
encourage the **mother-child bond**
with the **new bedside cot** from
Tech-NEL.

Application

A bed for the newborn that allows eye and skin contact between mother and child and promotes breastfeeding in the hospital during the first 3-4 days after birth during Rooming-In.

Design

- specifically developed for a safe sleeping environment
- customized color design creates a friendly atmosphere on your ward

Features

- for attachment to the mothers bed – easy to handle from bed, even after caesareans
- T-cushion creates a comfortable connection of the bed surfaces
- smooth height adjustment
- vibrationfree driving comfort ensured by our special construction and the skate wheels
- high stability, safe braking, easy and low-noise pushing with optimal foot space
- transparent cot with self-positioning and easy to use folding mechanism
- easy cleaning & disinfection

Your benefits

- BABYNEL-Beds are comfortable and multifunctional
- Co-sleeping mother and child
- work simplification for midwives and nurses by usability
- marketing-instrument for hospitals, to interest the parents - especially the mothers - for your maternity ward
